Institute located in Arlington Cottage, Hotel Street, Honolulu.

All communications or interviews strictly confidential.

For further particulars, address,

Secretary Hagey Institute,
Honolulu.

The Sunlight is
Glistening on
Those "Orange Rims,"

but unfortunately for us it is not glistening on them in this country, as our shipment of STEARNS wheels was put on the "W. H. Dimond," so is not due here for a week. Our COLUMBIAS also are still out of wheeling range, as they got to S. F. the day before the steamer sailed, and no more freight would be received, but they will come along soon, and in the meantime we want you to know that we received 97 RAMBLERS by yesterday's steamer, and can fit you out with either a '96 or '97 wheel, and we know we can suit you. The 1896 RAMBLER is the bargain of the year and the chance to buy a well known high grade wheel for \$75 and \$80 will not last long, as we are informed by the makers that this is the last lot of '96 wheels they can furnish, for, as they write, "our sales have been phenomenal, and you took the last '96 wheels we had in stock."

WE RENT BICYCLES by the hour, day, week or month, and we rent high grade new wheels, such as RAMBLERS, STEARNS, and COLUMBIAS, so if you want a short ride or a long ride, want to ride single or want to ride double, drop in and see how nicely we can fit you out. You will get just as good a mount if you telephone us, and we will send your wheel to your door. Your chance to buy a '96 RAMBLER cheap will only last a few days, don't miss it.

Playing by Memory.
"Do you allow your pupils to play by memory?" is a question asked and answered in The Etude. C. W. Grim says: Certainly. If the pupils can do it correctly. A good memory is a gift to be highly estimated, but a poor one does not indicate inferior musical talent. As in everything, practice can strengthen a weak memory. There are persons who have a "photographic memory." They have an image of the printed music in their minds. Then there are those who have a "finger memory." They play over a piece so many times until their fingers will make the necessary movements in their successive order. Others have a "tone memory." They can remember just what tone follows the other. The best, which includes all the above classes, is the analytic and synthetic memory. It is developed by slow and careful practice and is assisted by the knowledge of harmony, melody, rhythm, modulation and musical form. As soon as a pupil has learned a piece by notes well, let him try to play it by memory. If he succeeds, make it a point to have him always learn something by heart. Should a pupil have the bad habit of carelessly rattling off his pieces when he plays by memory, then playing by memory must be prohibited. Do not consider memorizing itself the goal of all musical reproduction, for the desirable gift of memory is, after all, only the handy substitute of a music roll.

The Kitchen Sink.
Special stress was laid by Miss Parson in a recent lecture on the care of kitchen plumbing. She said:
The kitchen sink requires unremitting attention. The liquid grease poured through it solidifies and clogs the pipes. To prevent this wash the sink thoroughly after each meal and pour hot water through the pipes to scald them out. A solution of washing soda, allowing half a pint of soda to 6 quarts of boiling water, should be kept on hand for cleansing the pipes. Warm the pipes first by pouring boiling water through them, and follow it by 2 quarts of the soda solution. If this is systematically used, the 6 quarts a week will keep a small house in good condition. In special emergencies, where the sink becomes stopped with grease, use larger quantities of the soda and then flush thoroughly. In case of sickness, when disinfection becomes necessary, dissolve 4 tablespoonfuls of carbolic acid in a pint of water, and pour through the pipes, waiting a few moments before flushing.

Awnings For Country Homes.
Awnings let in the light but keep out the sun's heat, affording just the conditions needed in summer. Blinds keep out heat, but make a room dark and gloomy. Awnings may easily be

FRAME FOR AN AWNING.

made at home, the plan sketched for Rural New Yorker being easily carried out.

A three-eighths inch iron rod is bent by a blacksmith into the form shown, and this is supported by screw eyes in the window case and wires extending from the lower corners to the top of the window case, hooks being placed there. These hooks also support the top of the awnings, eyelet holes being made in the cloth.

A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly numerous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its invigorating and strength-giving propensities. On tap or in bottles at the Criterion.

Nicely furnished rooms at the Popular House, 154 Fort street, from \$1.00 per week up.

New suitings and pants patterns are arriving by every mail steamer for L. B. Kerr. He sells a single yard at wholesale prices.
